

scale and that, unless otherwise indicated, they are merely intended to conceptually illustrate the structures and procedures described herein.--

Please add the following paragraph on page 17, after line 5:

A<sub>2</sub> --Thus, while there have shown and described and pointed out fundamental novel features of the invention as applied to preferred embodiments thereof, it will be understood that various omissions and substitutions and changes in the form and details of the devices illustrated, and in their operation, may be made by those skilled in the art without departing from the spirit of the invention. For example, it is expressly intended that all combinations of those elements which perform substantially the same function in substantially the same way to achieve the same results are within the scope of the invention. Moreover, it should be recognized that structures and/or elements shown and/or described in connection with any disclosed form or embodiment of the invention may be incorporated in any other disclosed or described or suggested form or embodiment as a general matter of design choice. It is the intention, therefore, to be limited only as indicated by the scope of the claims appended hereto.--

IN THE CLAIMS:

Please amend claims 2, 4, 9, 10, 11, 16, and 17, and add claims 18-33, as follows:

A<sub>3</sub> 2. (Amended) A resin injection molded article according to claim 1, wherein said two-dimensional reinforcing core material is one of a fiber material and the fiber material impregnated with a resin, the fiber material comprising one of a woven fabric and a knitted fabric.
